What Do You See?

by Vickie Chen

What do you see, little cat?

I see a ladybug on the leave,

and a butterfly on the flower.

What do you see, little dog?

I see chickens walking,

and birds flying.

What do you see, little squirrel?

I see a black swan

and a duck swimming in the lake.

What do you see, little monkey?

I see a zebra

and a rhino finding food to eat.

Do you know what the cow sees?
